

Directions from Málaga airport...

On leaving the airport head for Málaga centre - this means taking a right turn off the motorway quite soon after joining it so make sure you get into the right hand lane quickly - sometimes at peak traffic moments this lane can be quite congested and slow. You loop around and join the next motorway and from then on the signs are good - follow Sevilla - Cordoba - Granada for a while until forking away for Granada only - you will then join the A92 which will take you most of the way here.

Take junction 211 signposted Moraleda de Zafayona and Alhama de Granada - turn right off slip road sign posted for Alhama - continue straight on - no more turn offs. You will reach Buenavista a small hamlet - continue along the main road for about 2 minutes more when you will see a big road sign directing you to turn left into the village.

(Please note that one or two of our guests have been worried that they have got on the wrong road after leaving the motorway (A92) and that they are 'heading into the middle of nowhere!!' this can especially be the case if you are travelling in the dark – however, as long as you have gone through Moraleda and have then crossed the bridge over the Río Cacán you ARE on the right road!!!)

The road will take you right into the village (Valenzuela) - continue straight to the top - passing through a quite tight gap in buildings - keep right and you will see the double **RED** doors of Casa Los Olivos - please park opposite - tucking the vehicle in against the wall as much as is comfortable for you to get out of the drivers door.

Please ensure that you have our number – 958 363 785 in case of difficulty and you may need our address for car hire – Valenzuela 28, 18129 Santa Cruz del Comercio, Granada.
